Patent granted

The Finnish Patent and Registration Office (PRH) has accepted the patent application and granted a patent on 27.3.2024.

The PRH has published the granted patent in the Finnish Patent Gazette: <https://teollisoikeuslehdet.prh.fi/en/> and a letters patent in electronic format is available from our Patent Information Service at: <https://patenttitietopalvelu.prh.fi/en/>.

Opposition period has begun

A nine-month opposition period begins when the patent is granted. During the opposition period, anyone may file an opposition against the granted patent (section 24 of the Finnish Patents Act). We will notify the patent holder of any oppositions.

How to keep the patent in force

A granted patent can be kept in force for 20 years from the filing date of the application. The patent holder keeps the patent in force by paying annual fees in advance for each year, starting from the third year.

The annual fee is due for payment on the last day of the month in which the filing date of the application falls. The earliest you can pay the annual fee is 6 months before the due date or 6 months after the due date raised by 20%. The patent will lapse if you fail to pay the annual fee. (Sections 40, 41 and 51 of the Finnish Patents Act)

You can find the fees and payment instructions on our website at:

www.prh.fi/patent_fees.

Go to our Information service to see the annual fees that are due for payment: patenttitietopalvelu.prh.fi/en/.

Changes to register details

Notify the PRH of any changes in writing, for instance if the patent holder's address details have changed, licences have been granted, or the patent has been transferred to someone else.
